public & staff pages

01 · THE CHALLENGE

Paper files can't tell you which case is *late.*

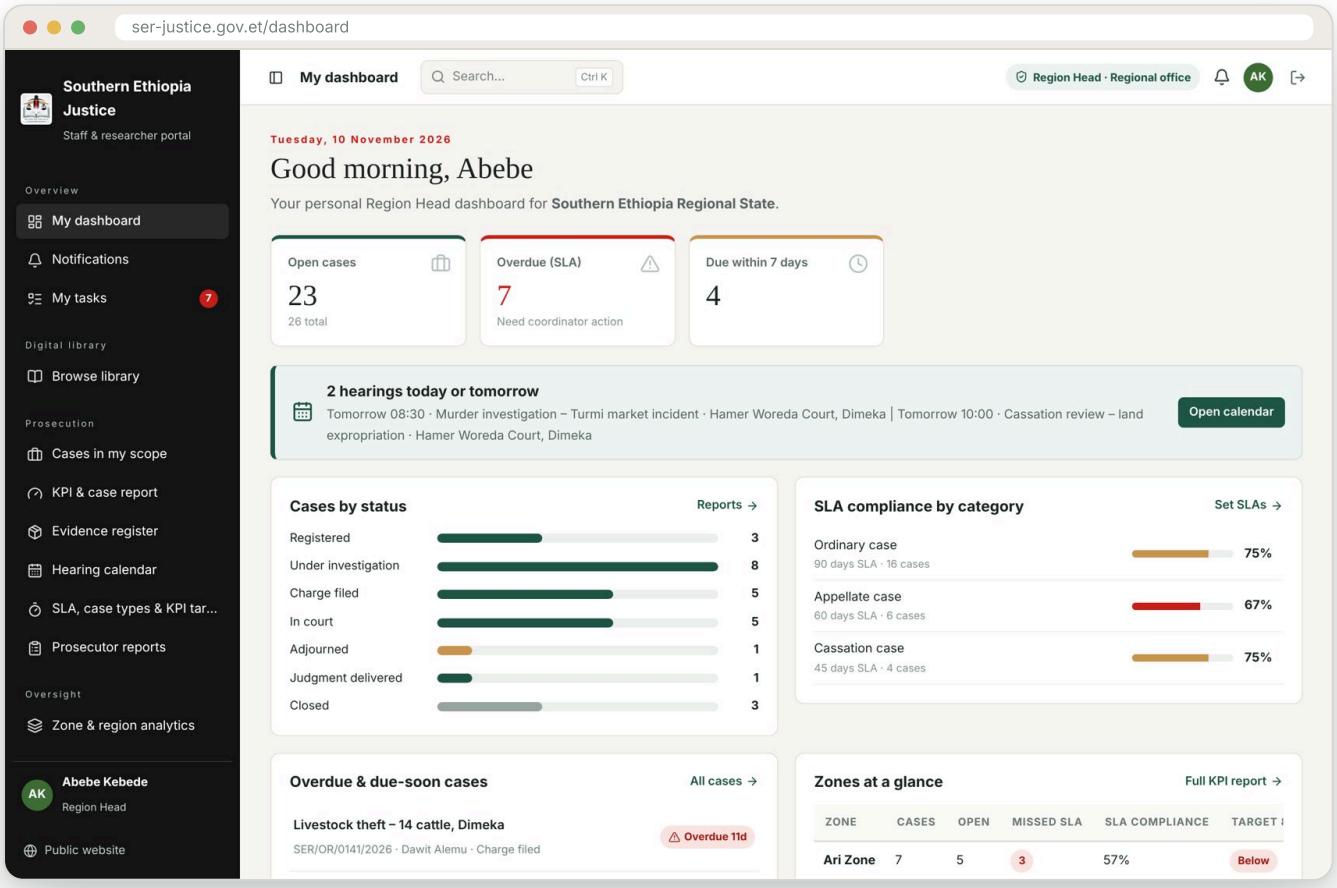

Across the Southern Ethiopia Region, cases move between woreda offices, zone departments and the regional bureau on paper. Leadership waits weeks for reports, citizens don't know where their complaint stands, and nobody can see where delays come from.

TODAY

- ✓ Case status lives in registers and phone calls
- ✓ SLA breaches discovered after the fact
- ✓ Monthly reports compiled by hand, zone by zone
- ✓ Citizens queue in person to ask about complaints
- ✓ Laws and research scattered across offices

WITH THE PORTAL

- ✓ Every case registered once, visible to the right people
- ✓ Live SLA countdown, automatic lock and alerts
- ✓ Region, zone and woreda KPIs updated in real time
- ✓ Online complaints with a tracking code – 24/7
- ✓ One digital library for staff and researchers

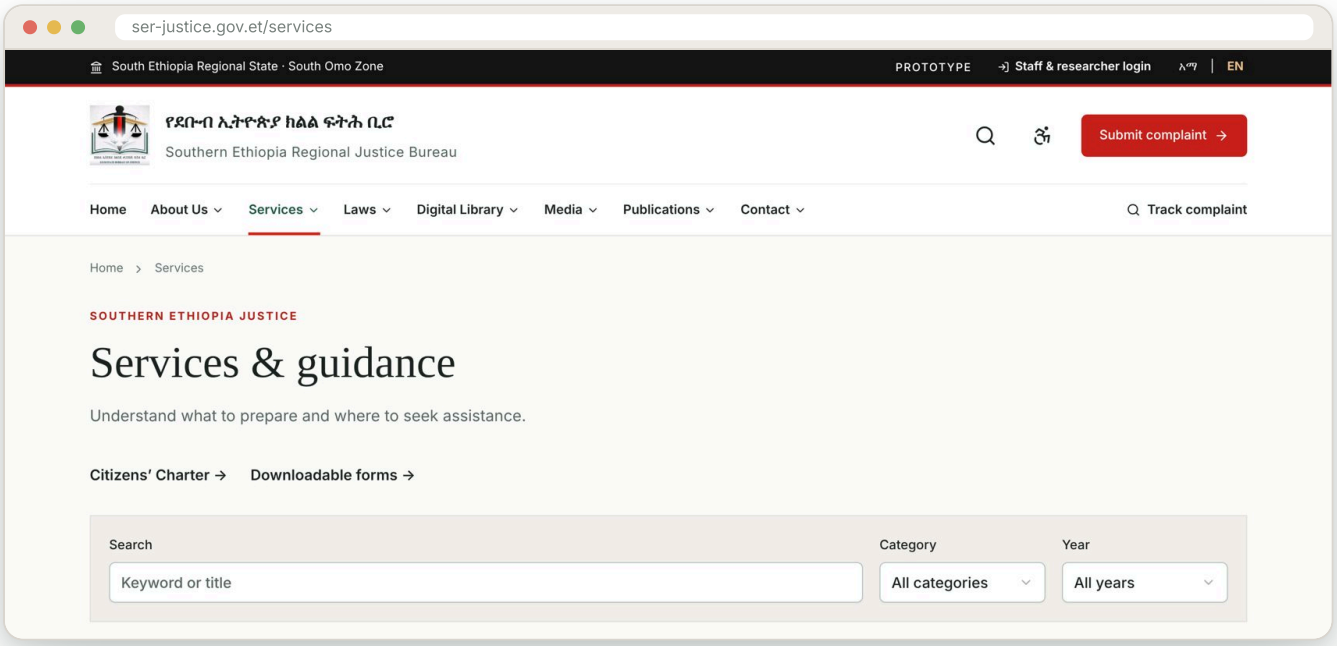

Region Head dashboard. Open, overdue and due-soon cases across all zones, with hearings for today and tomorrow.

02 · FOR CITIZENS

A public website that *explains*, not just informs.

Thirty public pages in English and Amharic: services, laws, legal aid, know-your-rights guides, news, notices, events, statistics and an office finder – all managed by bureau staff through a simple CMS.

Know your rights
Plain-language guides on arrest, GBV, land, inheritance and more.

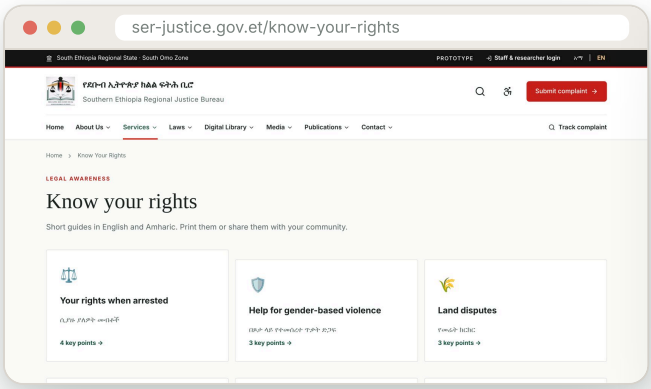

Free legal aid booking
Pick an office, date and time; staff confirm online.

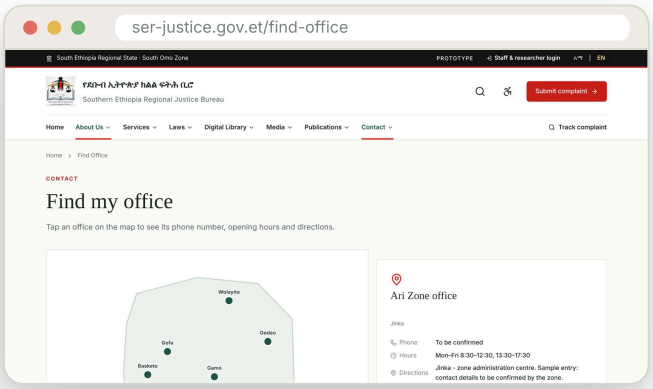

Laws & forms library
Search proclamations, regulations, directives by year.

Find my office
Map of zone and woreda offices with hours and phone.

Justice in numbers
Open, anonymous statistics build public trust.

Accessible by design
Text size, high contrast, Amharic toggle on every page.

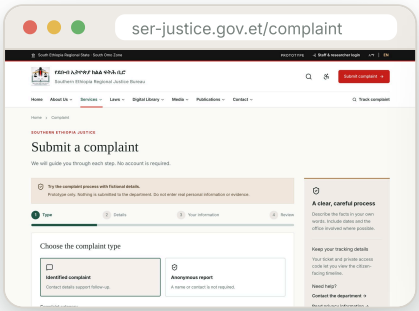

03 · COMPLAINTS

From first complaint to official answer – *traceable.*

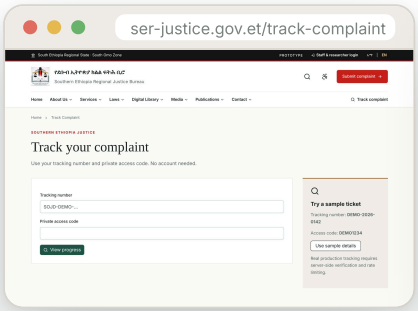

No account needed. Citizens file a complaint (or report anonymously), receive a tracking number and private code, and follow progress online. Complaint officers assign, respond and report from one register.

STEP 1 · SUBMIT

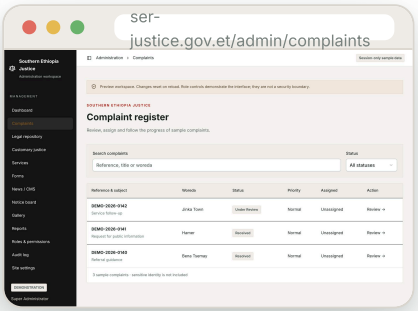

Guided wizard with attachments and consent.

STEP 2 · TRACK

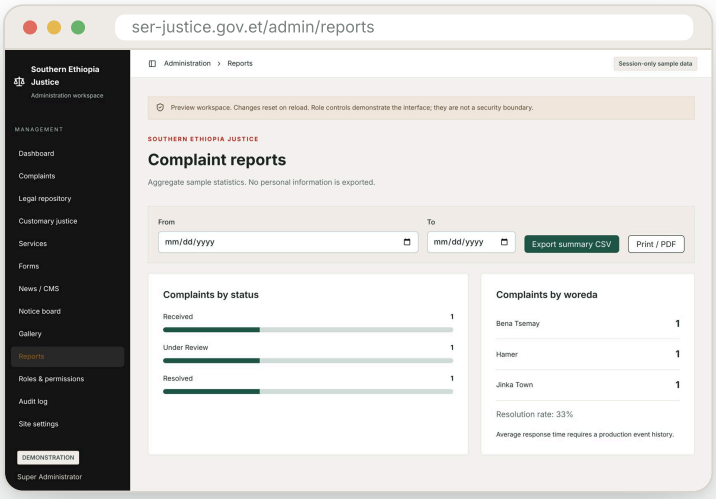

Tracking number + private access code.

STEP 3 · RESOLVE

Staff register: assign, respond, close.

Complaint reports by status and woreda – no personal data exported.

WHAT THE BUREAU GAINS

- ✓ Fewer office visits just to ask for status
- ✓ Anonymous channel for sensitive reports
- ✓ Every response logged in the audit trail
- ✓ Hot-spot woredas visible at a glance
- ✓ Citizen ratings feed satisfaction KPIs

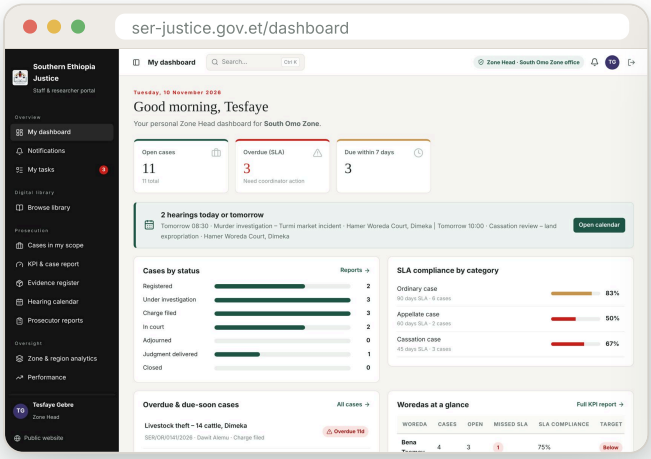

04 · BUILT FOR THE REGION

Everyone sees *exactly* what they are responsible for.

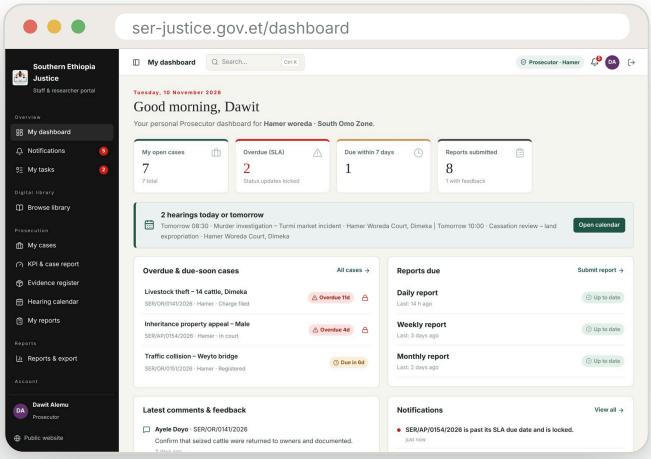

The staff workspace follows the regional structure. Every list, dashboard, KPI and report is cut to the signed-in user's scope automatically.

1	→	12	→	80+	→	∞
Region		Zones		Woredas		Prosecutors & cases

Role	Scope	What they do
Region Head	Whole region	Sets SLA days per case type, creates case types, sets KPI targets for all zones and woredas; views and comments on everything.
Zone Head	Own zone	Views cases, status and reports of all woredas in the zone; per-woreda roll-up reports; comments.
Woreda Coordinator	Own woreda	The only role that registers and assigns cases; reviews prosecutor reports; grants permission on overdue cases; balances workload.
Prosecutor	Own cases	Updates case status within SLA, records hearings and evidence, submits daily/weekly/monthly reports.
Auditor	Whole region	Read-only access to cases, reports and the audit log.
Library, Legal aid, Finance, Content, Complaint officers	Region	Run the digital library, appointments, payments, website content and complaints.
Super Admin	System	Creates users and places each in Region / Zone / Woreda; manages roles, settings, alerts and backups.

Zone Head – woredas at a glance.

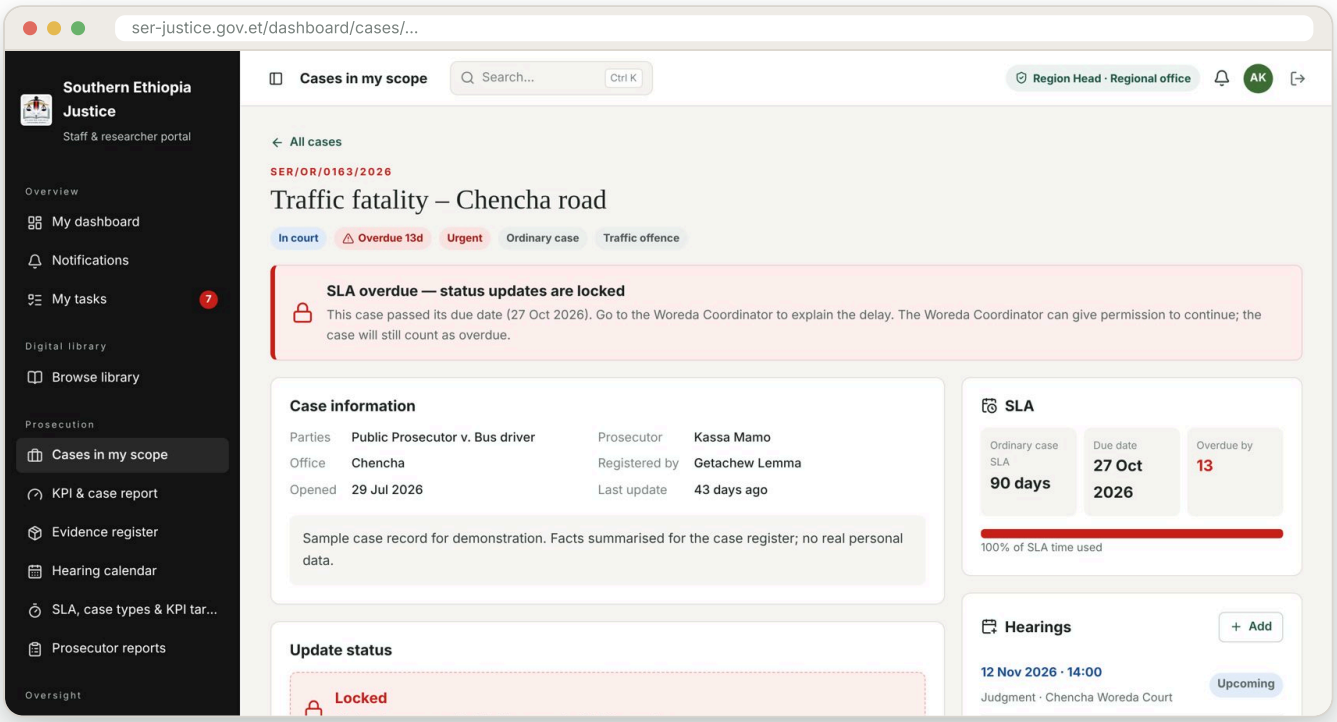

Prosecutor – own overdue cases and reports due.

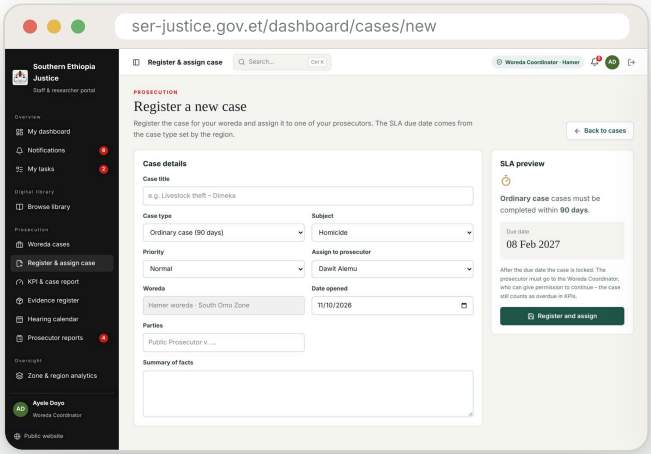

05 · CASE MANAGEMENT & SLA

Every case on time. Every delay *explained.*

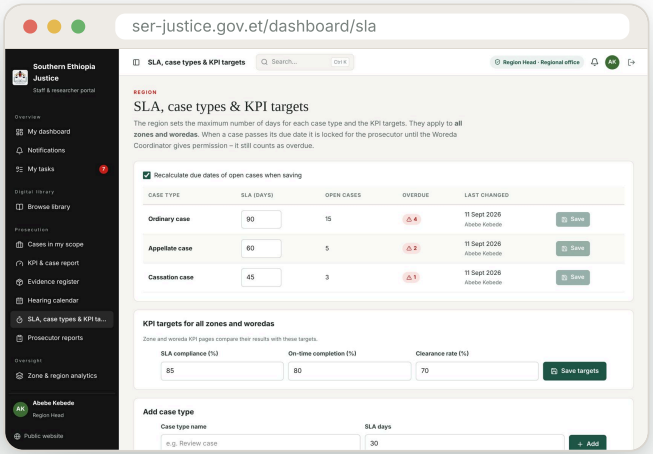

Coordinators register and assign cases; the due date comes automatically from the region's SLA for that case type. When a case passes its due date, the prosecutor is locked until the coordinator gives permission.

Case page. Status, documents, evidence & chain of custody, comments, SLA progress and hearings – with adjournment reasons.

Register & assign with live SLA preview.

SLA & KPI targets set once by the region.

Evidence register

Append-only custody log, broken chains flagged.

Hearing calendar

Today/tomorrow highlighted, reminders sent.

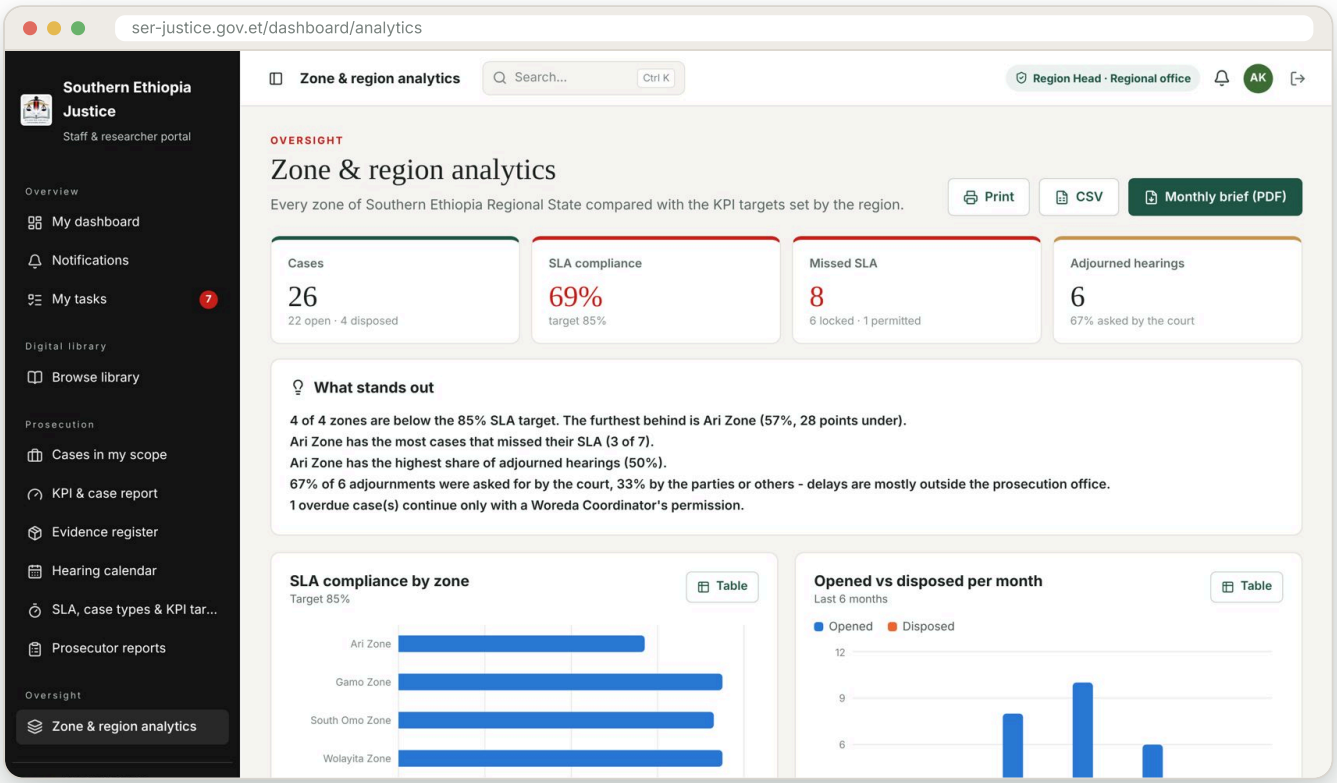

Workload balancing

Drag a case to another prosecutor.

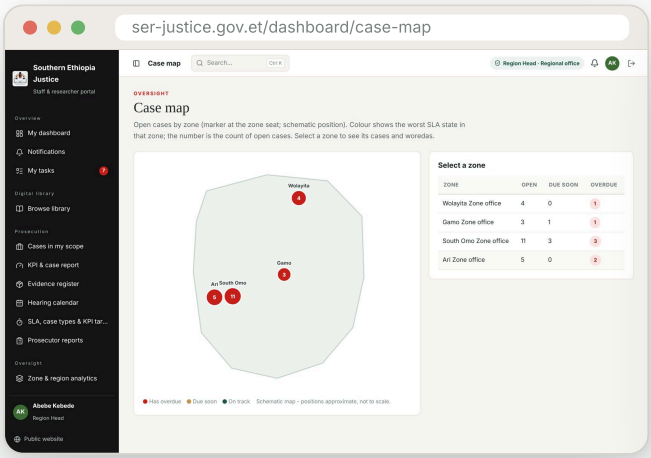

06 · OVERSIGHT & ANALYTICS

See which zone is behind – *and why.*

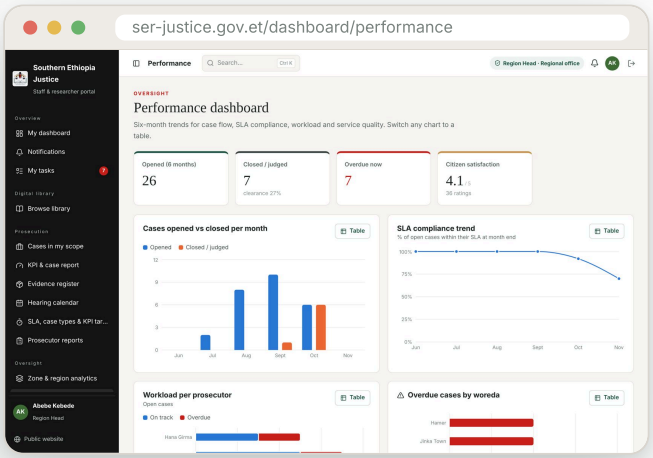

Zone & region analytics compares every zone (or woreda) with the region's targets and writes the key findings in plain language – including whether delays come from courts, the defence or the office.

"What stands out" – auto-written insights, SLA compliance by zone, monthly flow and a one-click monthly brief PDF.

Case map – open cases and worst SLA state per zone.

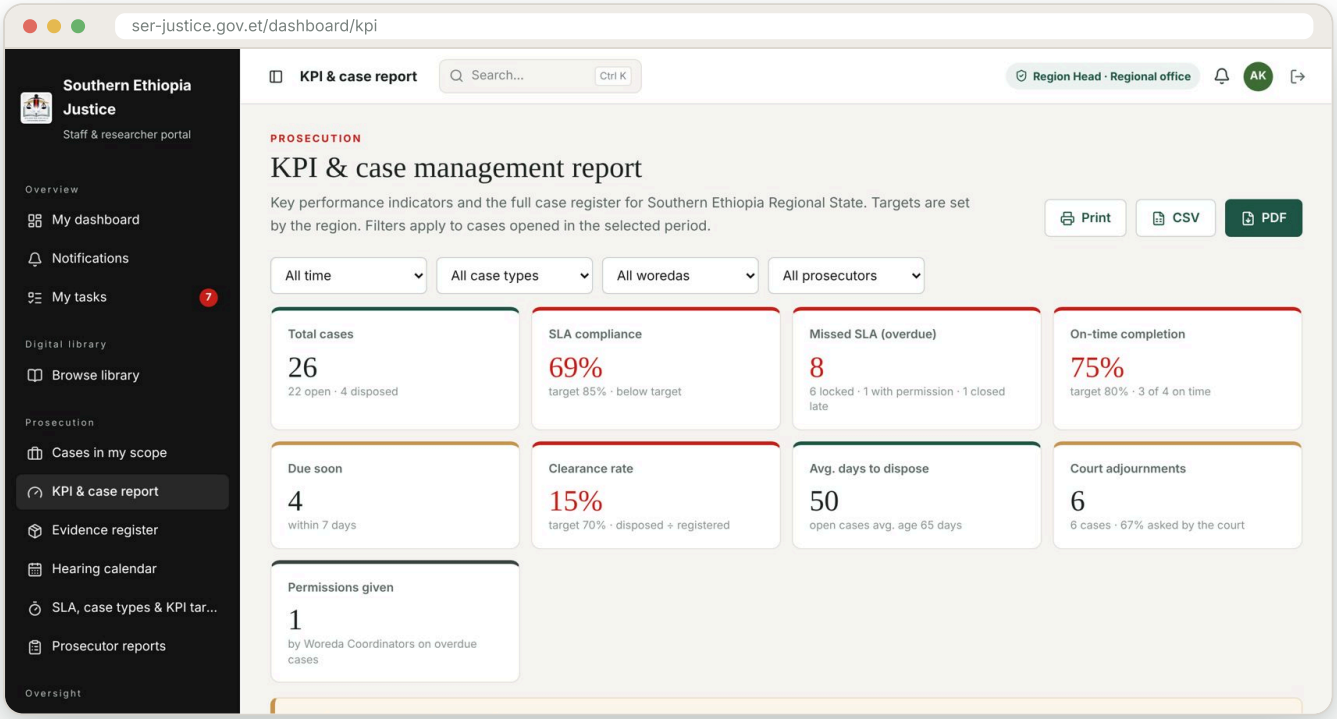

Performance – six-month trends, any chart as a table.

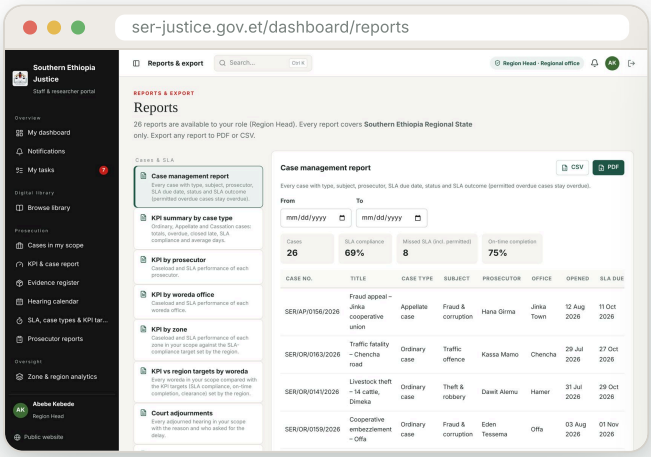

07 · REPORTS & KPIS

Monthly reporting in *one click*, not one week.

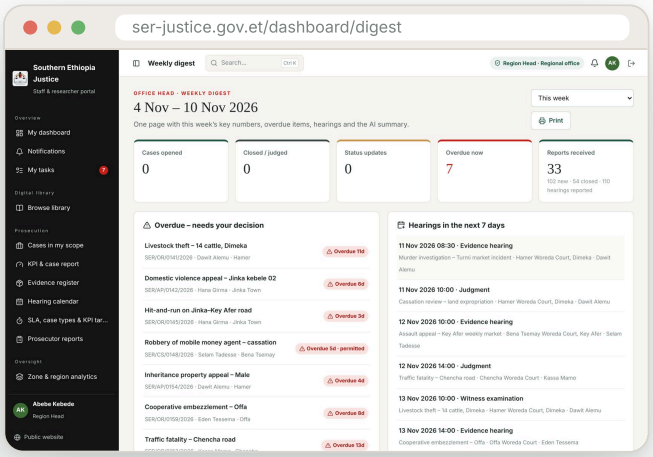

KPIs by case type, prosecutor, zone and woreda against regional targets. 26+ ready-made reports – each limited to the user's scope – export to PDF or CSV.

KPI & case management report with the full case register.

Reports & export – PDF or CSV.

Weekly digest with AI summary.

Prosecutor reports

Daily, weekly and monthly – reviewed with feedback.

Adjournment analysis

Reasons and requesting party, by zone.

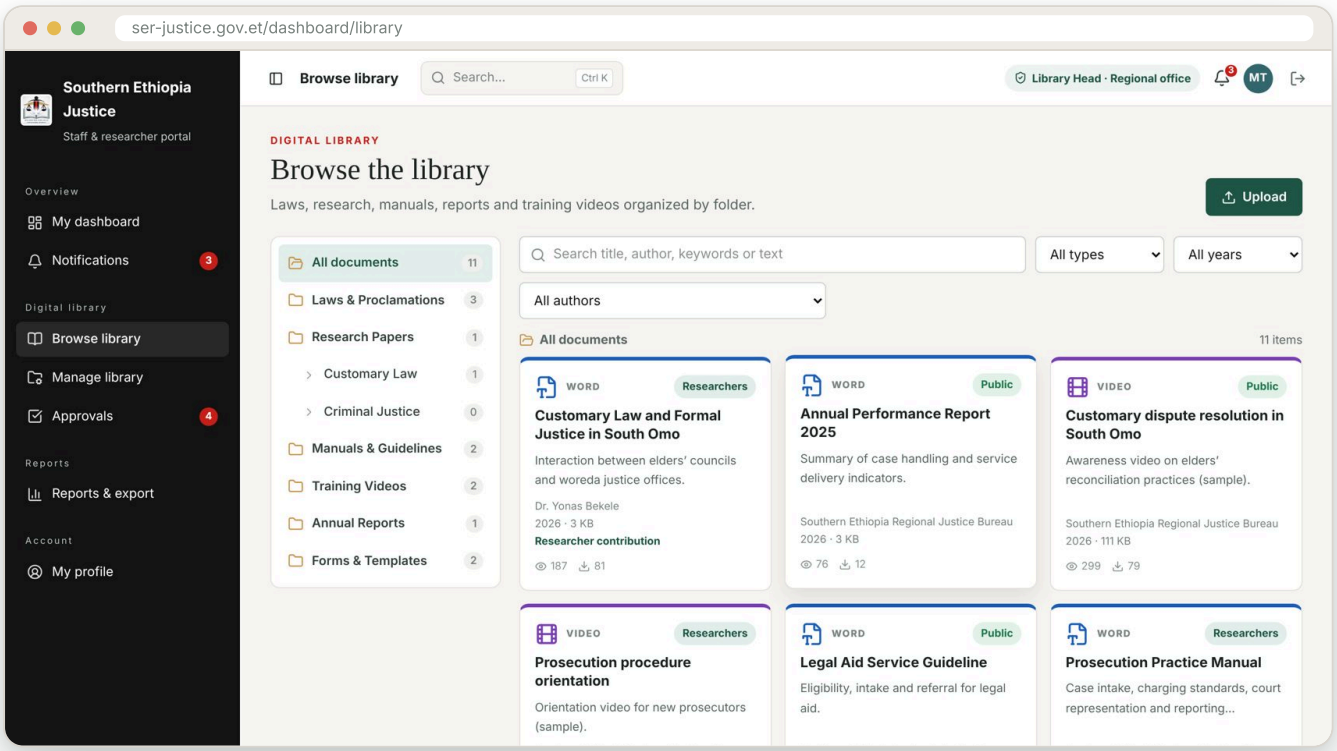

Citizen satisfaction

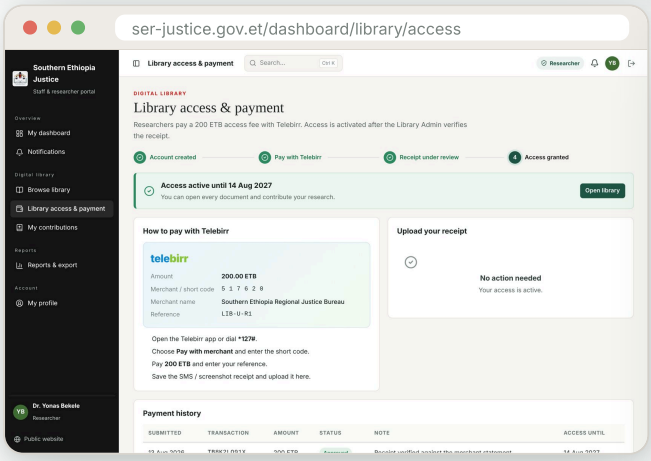

Service ratings feed leadership dashboards.

08 · DIGITAL LIBRARY

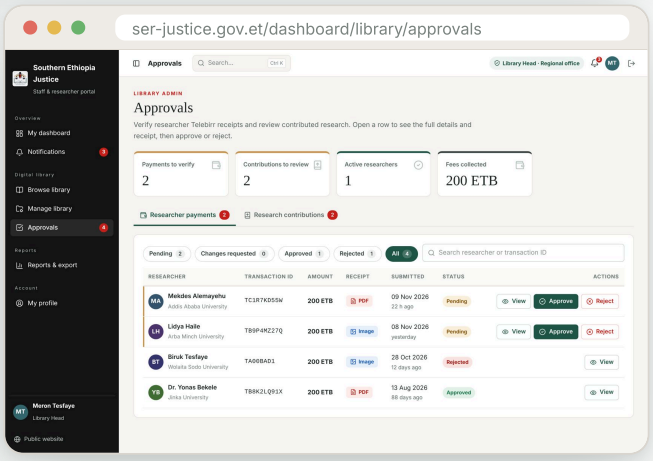

The region's legal knowledge, *in one place.*

Laws and proclamations, research on customary and criminal justice, practice manuals, annual reports and training videos. Staff read everything; researchers join by paying a small access fee with Telebirr.

Telebirr access – upload receipt, Library Head verifies.

Approvals – payments and contributed research.

Folders & access levels
Public, staff-only or paid researcher.

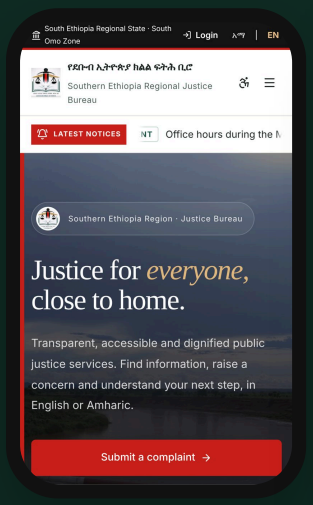

Research contributions
Approved papers published with author name.

Built-in viewer
PDF and video without leaving the portal.

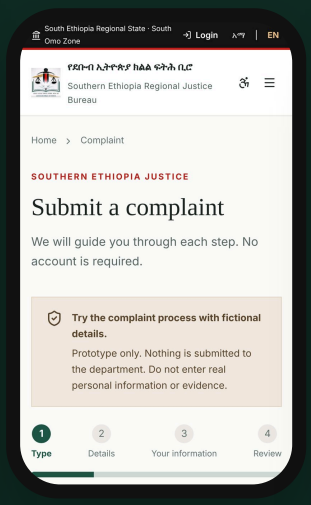

09 · ON EVERY DEVICE

Works where the *work* is – on a phone, in the field.

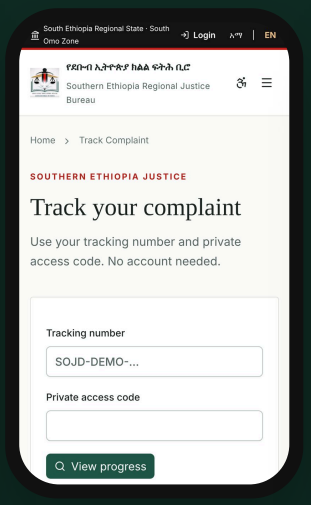

Every page adapts to a phone screen, so prosecutors in remote woredas, citizens and leaders can use the portal without a computer. Alerts can reach users by SMS or Telegram.

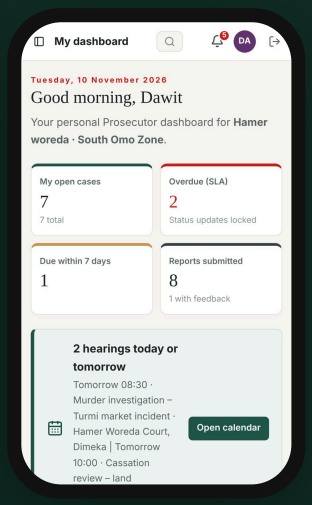

Home

Submit complaint

Track complaint

Prosecutor dashboard

English & አማርኛ
Switch language on any page.

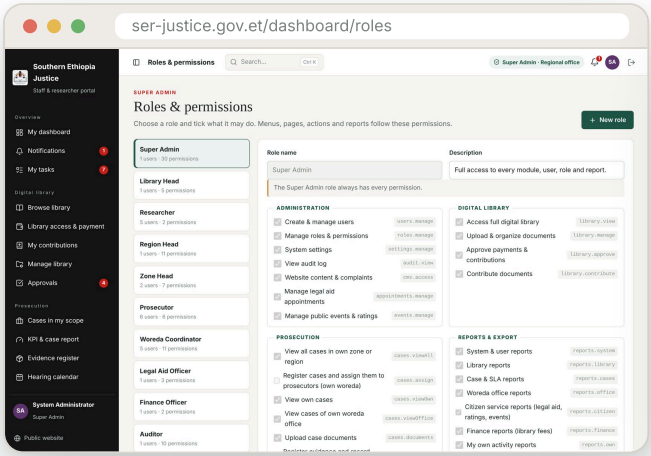

Accessible
Text size and high contrast built in.

Installable app
Add to home screen (PWA).

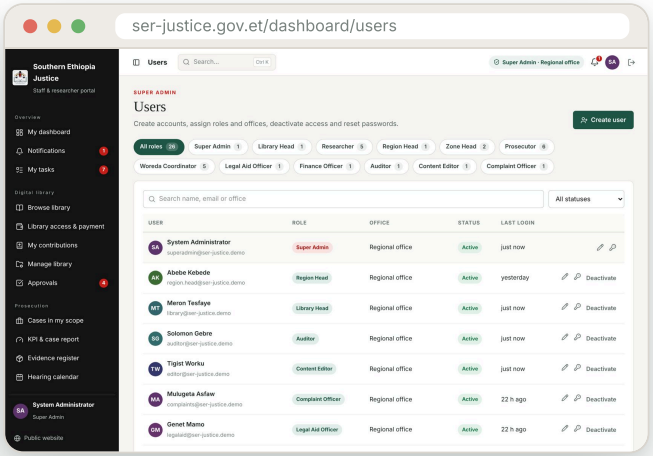

10 · ADMINISTRATION & TRUST

Controlled access. A complete *audit trail.*

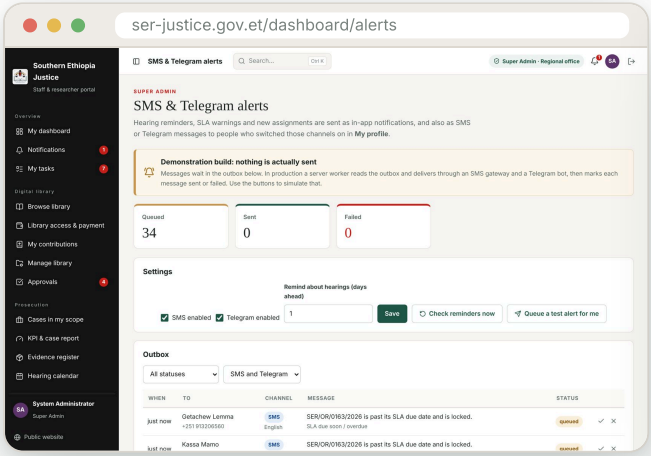

Administrators create users, place them in the Region / Zone / Woreda hierarchy and decide exactly what each role may see and do. Every action is logged.

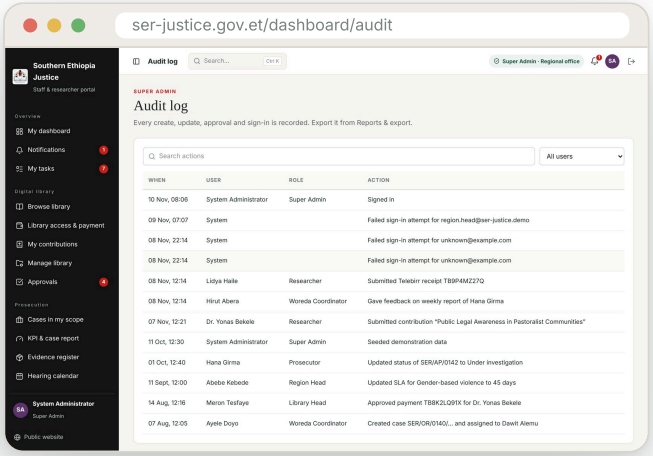

Roles & permissions matrix.

Users with role and office.

SMS & Telegram alerts outbox.

Audit log of every action.

System health
Sign-ins, failed logins, storage, backups.

Website CMS
Bilingual content with publish control.

Integration-ready
Adapter prepared for national court systems.

11 · NEXT STEPS

From pilot to *region-wide* rollout.

The portal is ready to demonstrate today with sample data for 5 woredas in 4 zones. A phased rollout lets the bureau start small and scale with confidence.

PHASE 1

Validate

Review with bureau leadership; confirm zones, woredas, case types and SLA days.

PHASE 2

Secure

Production server, database, server-side access control and backups.

PHASE 3

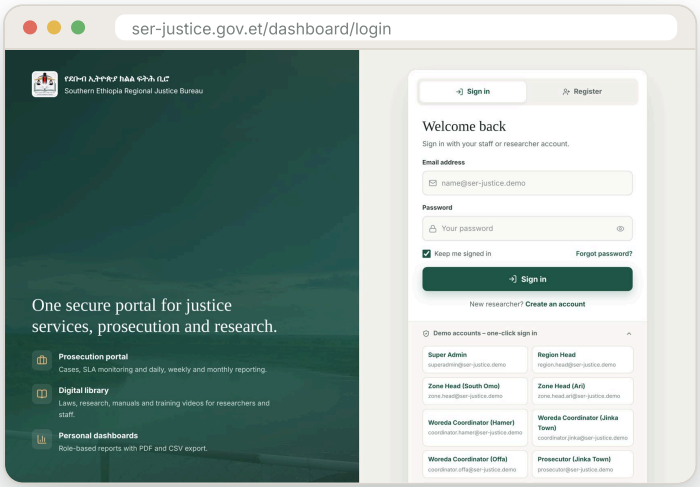

Pilot

Go live in selected zones; train coordinators and prosecutors.

PHASE 4

Scale

All 12 zones; SMS gateway, Telegram bot and court-system integration.

WHAT WE ASK OF THE REGION

- ✓ Official list of zones, woredas and offices
- ✓ Approved case types and SLA days
- ✓ KPI targets for zones and woredas
- ✓ Focal person per zone for training
- ✓ Content for laws, services and notices

A detailed catalogue of every page, with screenshots and descriptions, accompanies this brochure.

የደቡብ ኢትዮጵያ ክልል ፍትሕ ቢሮ
