INTRODUCTION

One portal, two faces

The Southern Ethiopia Regional Justice Portal has a **public website** for citizens (no account needed) and a **staff workspace** for prosecutors, Woreda Coordinators, Zone Heads, the Region Head, library staff, researchers and administrators. The workspace follows the region's structure – **Region → 12 Zones → 80+ Woredas** – and every list, dashboard and report is automatically limited to the signed-in user's scope.

EACH CATALOGUE PAGE SHOWS

- ✓ **Title and web address** of the page in the portal
- ✓ **Who can use it** – the role and the scope of data they see
- ✓ **Screenshot** taken from the running system with sample data
- ✓ **Detailed description** of the purpose and how it is used
- ✓ **Key features** at a glance
